

# JUNK BASKETS / GAUGE RINGS

## More durable. Better Function. Better Grip

An upgraded version of the industry standard junk basket, corrosion resistant material and design features increase durability and function. Fluted wrench surfaces on the junk basket and gauge rings improve wrench grip and torque to create a more productive and safer tool.

### More Durable

- Corrosion resistant 304 steel basket screen
- Shorter, thicker rod reduces the risk of bending
- Top sub permanently TIG welded to rod for a more dependable connection

### Better Function

- Non-linear vents trap more debris while increasing fluid flow

### Better Grip: Fluted

#### Wrench Surface

- Fluted wrench surface on the junk baskets and gauge rings identifies the proper wrench placement to minimize tool damage
- Increases wrench grip and torque
- Pipe wrench is less likely to slip and injure the user

### Compatible with Industry

#### Standard Components

- Choice of top sub style
- Yellow Jacket junk baskets accept industry standard gauge rings
- Yellow Jacket gauge rings fit industry standard junk baskets

### Junk Basket Part Number & Size Guide

Part	Part Size	Sub Style
<b>JB</b>	<b>##</b>	<b>X</b>
<b>Junk Basket</b>	05 = #5	A = 1 $\frac{5}{8}$ " – 6 Acme
	10 = #10	B = 3 $\frac{3}{4}$ " – Quick Change
	15 = #15	C = 3 $\frac{1}{8}$ " – Quick Change
	20 = #20	D = JRC – Quick Change
	25 = #25	E = $\frac{3}{4}$ " – Sucker Rod
		G = 1 $\frac{3}{16}$ " – 12 Un Go Female

### Gauge Ring Part Number & Size Guide

Part	Part Size	Sub Style
<b>JB</b>	<b>##</b>	<b>#####</b>
<b>Junk Basket</b>		<b>EXAMPLES</b>
	05 = #5	3000 = 3.0"
	1X = #10 & #15	8500 = 8.5"
	20 = #20	
<b>Gauge Ring</b>	25 = #25	

### Gauge Ring Part Numbers

<b>JB.GR.05.####</b>	#5: OD Sizes From 1.68" – 2.10"
<b>JB.GR.1X.####</b>	#10 & #15: OD Sizes From 3" – 7 $\frac{1}{2}$ "*
<b>JB.GR.20.####</b>	#20: OD Sizes From 4" – 8 $\frac{1}{2}$ "*
<b>JB.GR.25.####</b>	#25: OD Sizes From 6" – 8 $\frac{1}{2}$ "*

# ABOUT YELLOW JACKET OIL TOOLS

## Build guns faster and smarter – with tools that are more productive, durable, and safe.

Yellow Jacket Oil Tools is a full-service distributor of downhole completion tools and oilfield perforating systems, specialized in building tools that improve wireline performance, enhance safety, and stretch our clients' dollar as far as it can go.

Time is critical in downhole operations. Rapid and reliable response from primary suppliers is vital to the success of any wireline operation, and anticipating what tools are required for tomorrow's job can be difficult.

Our knowledgeable sales team is on call 24/7, ready to field your call and deliver the right tools right away. Many deliveries are made through Regional Distribution Warehouses strategically located in each major oil producing region. Yellow Jacket Oil Tools is a division of G&H Diversified Manufacturing, LP, an ISO 9001:2015 certified, American-owned advanced contract manufacturer, serving a range of industries since 1958.

## Warehouse Locations | Convenient Distribution

When you need tools, you need them fast. Major U.S. and Canadian shale plays are served by the Yellow Jacket Oil Tools warehouses shown on the maps above and below.
