

M1 COMPOSITE BRIDGE PLUG

Shortest Full Composite Top-Set Bridge Plug.

Introducing the Yellow Jacket exclusive, patent-pending M1 Bridge Plug, the shortest top-set full composite bridge plug on the market.

Less is more: less material, less cost, more advanced.

M1 Bridge Plug

- Shortest top-set full composite bridge plug on the market
- Drill out in 10 minutes or less
- Molded slip design includes anti-preset feature and ceramic buttons. **ZERO** metal content
- Unique, diamond-shaped button configuration grips more casing surface area for a stronger bite
- Interlocking and clutching features prevent rotation during set and drill-out

- Compatible with industry standard and Yellow Jacket exclusive setting tools

Wireline Adapter Kit

- Thread design eliminates the need for a safety spring
- Increased flow area with larger flow slots
- Fluted wrench surface improves pipe wrench grip
- Anti-preset shear screw

Part Number

- BP.45.340.FE.A** 4.5" M1 Bridge Plug Slim Assembly*
- BP.45.360.XX.A** 4.5" M1 Bridge Plug Assembly
- BP.55.415.XX.A** 5.5" M1 Bridge Plug Slim Assembly
- BP.55.440.XX.A** 5.5" M1 Bridge Plug Assembly
- BP.60.480.XX.A** 6.0" M1 Bridge Plug Assembly

Specifications

Part Number	Casing Size (in)	Casing Weight (lbs/ft)	Outer Diameter (in)	Overall Length (in)	Max Temp (° F)	Max Pressure Above (psi)	Max Pressure Below (psi)
BP.45.340.FE.A*	4.5	13.5-15.1	3.40	14.125	250	10,000	10,000
BP.45.360.XX.A	4.5	11.6 - 15.1	3.60	14.125	250	10,000	10,000
BP.55.415.XX.A	5.5	23-26	4.15	16.450	250	10,000	10,000
BP.55.440.XX.A	5.5	17 - 23	4.40	16.450	250	10,000	10,000
BP.60.480.XX.A	6.0	23 - 26	4.80	17.125	250	8,000	8,000

*3.400" OD plug only offered with FE Slip Option

XX denotes slip material configuration

(CB - CERAMIC BUTTON, MB - METALLIC BUTTON, FE - OVER MOLDED CAST IRON INSERT)

SHORTEST IN ITS CLASS.
IN THIS CASE, LESS IS MORE.

ABOUT YELLOW JACKET OIL TOOLS

Build guns faster and smarter – with tools that are more productive, durable, and safe.

Yellow Jacket Oil Tools is a full-service distributor of downhole completion tools and oil well perforating systems, specialized in building tools that improve wireline performance, enhance safety, and stretch our clients' dollar as far as it can go.

Time is critical in downhole operations. Rapid and reliable response from primary suppliers is vital to the success of any wireline operation, and anticipating what tools are required for tomorrow's job can be difficult.

Our knowledgeable sales team is on call 24/7, ready to field your call and deliver the right tools right away. Many deliveries are made through Regional Distribution Warehouses strategically located in each major oil producing region. Yellow Jacket Oil Tools is a division of G&H Diversified Manufacturing, LP, an ISO 9001:2015 certified, American-owned advanced contract manufacturer, serving a range of industries since 1958.

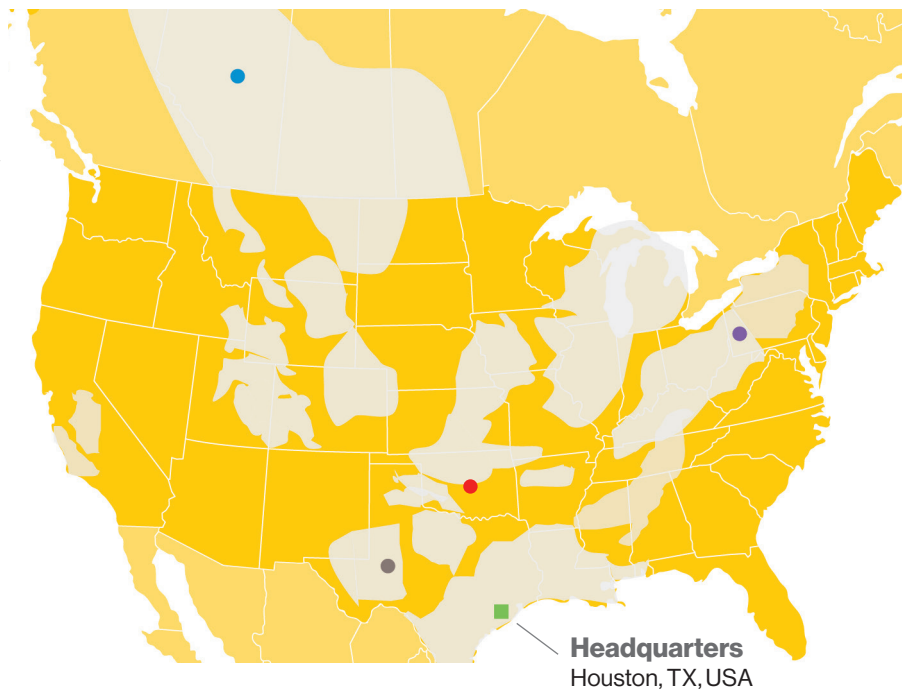

Convenient Distribution

When you need tools, you need them fast. Major U.S. & Canadian shale plays are served by the Yellow Jacket warehouses shown here:
