

M1 DISSOLVABLE FRAC PLUG

SHORTEST IN ITS CLASS.
IN THIS CASE, LESS IS MORE.

Shortest Dissolvable Top-Set Frac Plug.

Introducing the Yellow Jacket exclusive, patented M1 Dissolvable Frac Plug, the shortest top-set dissolvable frac plug on the market. Less is more: less material, less cost, more advanced.

M1 Dissolvable Frac Plug

- Shortest top-set dissolvable frac plug on the market
- Fully dissolves in 4-10 days, based on well conditions
- No metal left behind
- Integrated ratchet profile eliminates the need for top slips*
- Fully dissolvable elastomer
- Slip integrated anti-extrusion features*
- Unique, diamond-shaped button configuration grips more casing surface area for a stronger bite
- Proprietary coating ensures plug integrity during multi-well operations

- Larger ID maximizes fluid bypass during pump-down
- Compatible with industry standard and Yellow Jacket exclusive setting tools

Wireline Adapter Kit

- Ball can be run in place to conserve water, or dropped from the surface
- Thread design eliminates the need for a safety spring
- Increased flow area with larger flow slots
- Fluted wrench surface improves pipe wrench grip
- Anti-preset shear screw

*patent pending

Part Number

DFP.45.340.XX.A 4.5" Slim Assembly
DFP.45.360.XX.A 4.5" Assembly
DFP.55.415.XX.A 5.5" Slim Assembly

DFP.55.440.XX.A 5.5" Assembly
DFP.60.480.XX.A 6.0" Assembly

Specifications

| Part Number | Casing Size (in) | Casing Weight (lbs) | Outer Diameter (in) | Inner Diameter (in) | Length (in) | Max Temp (°F) | Max Pressure (psi) |
|-----------------|------------------|---------------------|---------------------|---------------------|-------------|---------------|--------------------|
| DFP.45.340.XX.A | 4.5 | 13.5-15.1 | 3.40 | 1.000 | 9.825 | 250 | 10,000 |
| DFP.45.360.XX.A | 4.5 | 11.6-13.5 | 3.60 | 1.000 | 9.825 | 250 | 10,000 |
| DFP.55.415.XX.A | 5.5 | 23 - 26 | 4.15 | 1.400 | 11.000 | 250 | 10,000 |
| DFP.55.440.XX.A | 5.5 | 17 - 23 | 4.40 | 1.400 | 11.000 | 250 | 10,000 |
| DFP.60.480.XX.A | 6.0 | 23 - 26 | 4.80 | 1.600 | 11.000 | 250 | 10,000 |

* XX denotes slip material configuration
(CB - CERAMIC BUTTON, MB - METALLIC BUTTON)

ABOUT YELLOW JACKET OIL TOOLS

Build guns faster and smarter – with tools that are more productive, durable, and safe.

Yellow Jacket Oil Tools is a full-service distributor of downhole completion tools and oil well perforating systems, specialized in building tools that improve wireline performance, enhance safety, and stretch our clients' dollar as far as it can go.

Time is critical in downhole operations. Rapid and reliable response from primary suppliers is vital to the success of any wireline operation, and anticipating what tools are required for tomorrow's job can be difficult.

Our knowledgeable sales team is on call 24/7, ready to field your call and deliver the right tools right away. Many deliveries are made through Regional Distribution Warehouses strategically located in each major oil producing region. Yellow Jacket Oil Tools is a division of G&H Diversified Manufacturing, LP, an ISO 9001:2015 certified, American-owned advanced contract manufacturer, serving a range of industries since 1958.

Convenient Distribution

When you need tools, you need them fast. Major U.S. & Canadian shale plays are served by the Yellow Jacket warehouses shown here:
