

M1NT™ COMPOSITE FRAC PLUG

M1NT Frac Plug: Engineered for Next-Level Performance

The patented Yellow Jacket M1NT Frac Plug delivers enhanced reliability with a double-button top slip and reinforced bottom slip, increasing contact area for stronger anchoring and superior isolation. Its balanced design optimizes strength and durability, enabling efficient drill-out and reduced wash times.

M1NT Composite Frac Plug

- **Balanced Design:** Same overall length, with redistributed volume for better anchoring and stronger isolation, allowing for efficient drill-out and decreased wash times.
- **New double-button top slip:** Increases the contact area between plug and casing ID
- **Reinforced bottom slip** prevents slip body breakage while enhancing strength and overall durability
- **Removed excess nose cone material** while maintaining rigidity and toughness.
- Shortest top-set full composite frac plug on the market
- Drill-out in 4 minutes or less
- Molded slip design includes anti-preset feature and ceramic buttons.
- ZERO** metal content

- Unique, diamond-shaped button configuration grips more casing surface area for a stronger bite
- Available Pump Down Ring enhances pump down efficiency by ensuring precise installation and stable anchoring
- Interlocking clutching features prevent rotation during set and drill-out
- Compatible with industry standard and Yellow Jacket setting tools

Wireline Adapter Kit

- Ball can be run in place to conserve water, or dropped from the surface.
- Thread design eliminates need for a safety spring
- Increased flow area with larger flow slots
- Fluted wrench surface improves pipe wrench grip
- Anti-preset shear screw

Specifications

Frac Plug Assembly	Casing Size (in)	Casing Weight (lbs/ft)	Outer Diameter (in)	Inner Diameter (in)	Overall Length (in)	Max Temp (° F)	Max Pressure (psi)
4.5" Slim M1NT Frac Plug Assembly	4.5	13.5-15.1	3.400	0.750	15.100	250	10,000
4.5" M1NT Frac Plug Assembly	4.5	11.6-13.5	3.600	0.750	15.400	250	10,000
5.0" M1NT Frac Plug Assembly	5.0	18 - 21.4	3.850	0.750	14.500	250	10,000
5.5" Slim M1NT Frac Plug Assembly	5.5	20-26	4.150	1.000	17.750	250	10,000
5.5" M1NT Frac Plug Assembly	5.5	17 - 23	4.400	1.000	14.857	250	10,000
6.0" M1NT Frac Plug Assembly	6.0	23 - 26	4.800	1.375	15.250	250	10,000

*Offered with either Ceramic or Metal Buttons, and with or without a pump down ring.

ABOUT YELLOW JACKET OIL TOOLS

Build guns strings faster and smarter – with tools that are more productive, durable, and safe.

Yellow Jacket Oil Tools is a full-service distributor of downhole completion tools and oil well perforating systems, specialized in building tools that improve wireline performance, enhance safety, and stretch our clients' dollar as far as it can go.

Time is critical in downhole operations. Rapid and reliable response from primary suppliers is vital to the success of any wireline operation, and anticipating what tools are required for tomorrow's job can be difficult.

Our knowledgeable sales team is on call 24/7, ready to field your call and deliver the right tools right away. Many deliveries are made through Regional Distribution Warehouses strategically located in each major oil producing region. Yellow Jacket Oil Tools is a division of G&H Diversified Manufacturing, LP, an ISO 9001:2015 certified, American-owned advanced contract manufacturer, serving a range of industries since 1958.

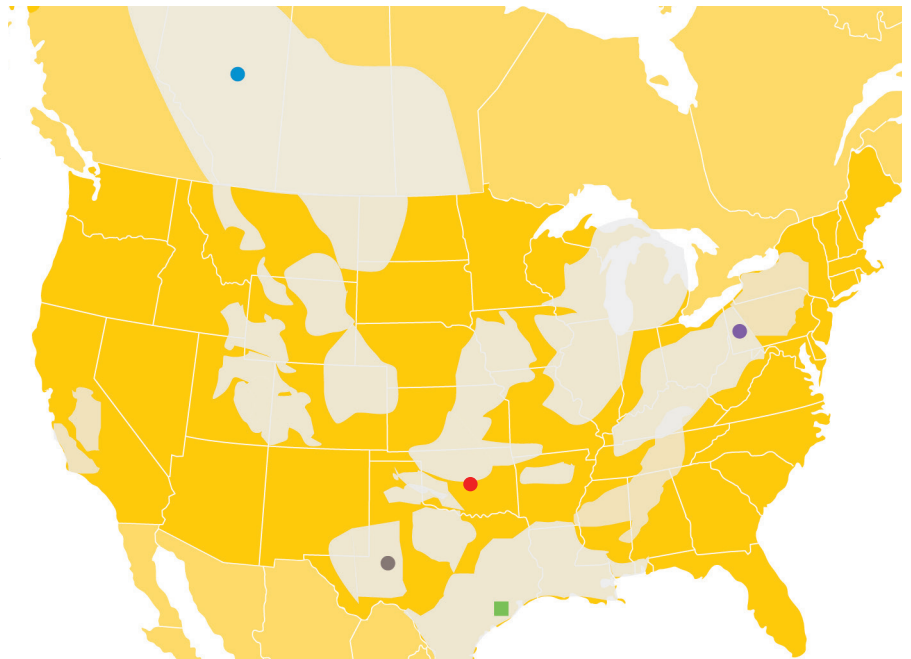

Convenient Distribution

When you need tools, you need them fast. Major U.S. & Canadian shale plays are served by the Yellow Jacket warehouses shown here:
